NFLX, Close	
NFLX, Moving Averag..	

Bar Chart

Dashboard

Insights

- Apple showed the most stable trend.
- Netflix showed high volatility.
- Microsoft & Google had similar movement patterns.

Conclusion

This stock market analysis successfully examined the recent performance of four major tech companies — **Apple, Microsoft, Netflix, and Google** — over the past three months. By leveraging Tableau's visualization tools, we were able to:

- Track daily stock **trends** through line charts
- Identify short-term **patterns** using 7-day moving averages
- Analyze **volatility** by calculating standard deviations of closing prices
- Explore cross-company dynamics via **filters** and interactive dashboards
